

Mirrors:

Airline Services Interiors manufacture mirrors for airlines using high quality jet mirror for a variety of different aircraft types. Our mirrors are certified under EASA Part 21J European Parts Approval and manufactured in-house using our Part 21G Production facility. The company also carries out testing and certification services to meet regulatory standards and can provide an EASA Service Bulletin to allow the installation of the parts on our customers' aircraft.

Products:

- Baggage bin security mirrors
- Galley mirrors
- Stowage door mirrors
- Illuminated lavatory mirrors
- Complex decorative mirrors for on-board cocktail bars and first class cabins
- Framed mirrors
- Etched Mirrors with cut-outs to allow back-lighting detail or for adding handles in lavatory areas
- Profiled mirrors
- Curved mirrors

Benefits:

- We can reverse engineer your current mirror product
- We offer a variety of different types of mirrors
- We make product improvements versus OEM products
- We can reduce weight versus OEM products
- We offer faster lead times when compared to OEM providers
- We have a dedicated development/design support team
